

Fork Mounted Sweepers

Fork Mounted Sweeper - The forklift mounted broom attachment could actually make industrial sweeping jobs much easier. Intended for use on either wet or dry surfaces, this mounted broom accessory can push snow and squeegee water without problems. This particular attachment is often utilized to clean trash from parking lots, warehouses, construction sites, docks and nearly anywhere it is needed. The lift truck sweeper is a low maintenance attachment which uses quick-tite fork products to effortlessly attach to the lift truck.
