

Meritor Part

Meritor Parts - The Meritor Company is a premier global dealer built upon 100 years of tradition of service and quality. Meritor specializes in integrated systems with a range of modules and parts to the original machinery makers and aftermarket equipment in the transportation and industrial trades.

Meritor values the wishes of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor promotes innovation and collaboration among a team of experienced professionals.

By just hiring future focused staff, Meritor strongly believes these top-caliber people would be able to quickly get used to to changing environments and demonstrate the performance and commitment required in order to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor provides all of their employees various opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their worldwide engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated around the globe in 19 nations and in 5 different continents.

The supplier development network is specifically located in order to support new business development. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every aspect of the trade. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within each region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business methods and apply lean techniques.
