

Advance-Nilfisk Part

Advance-Nilfisk Parts - Think about how long and tedious it would really be to tidy up right after a party, with no help from equipment. Not too long ago, the dust from carpets and upholstery had to be beat out of them by hand; brooms, brushes and cleaning cloths were the top cleaning products at the time.

P.A. Fisker, the founder of Nilfisk-Advance, was an electrical engineer who really loved working with electrical motors. Founding the business in 1906, he began to produce motors to be able to drive drills, fans, machine tools and coffee grinders. Mr. Fisker's dream from the beginning was to have a global business advertising goods globally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented an amazing, ground breaking vacuum cleaner which can be operated by a single individual as it just weighed 17.5 kilos! This creation came in a time where numerous cleaning machines were very big and required 4 or more operators, hence, the Nilfisk C1 changed everything and evolved the way we clean forever. The mastermind behind these very first cleaning machines remains unparalleled. Cleaning machines offer a brilliant solution to an existing problem; things get dirty and should be cleaned regularly, without a lot of effort.

Slowly but steadily, Nilfisk-Advance developed through the decades. During the nineteen eighties, this expansion actually occurred the time the company became a part of the NKT Group. Their new owners' drive and motivation made Nilfisk-Advance take a huge leap forward within the industry, aspiring to be amongst the leading global players in the market of professional cleaning machines. Nilfisk-Advance is currently represented in every part of the world due to gradually obtaining numerous smaller companies to be able to grow their product selection and presence in new markets. They are proud to offer different cleaning solutions to fit every need.
