

Forklift Electrical Part

Forklift Electrical Part - Lift trucks along with different lift trucks can have specific labels utilized in certain hazardous locations. The label indicates that this specific model of lift truck meets the minimum standards of ANSI/UL 553 utilized for electric forklifts or ANSI/UL 558 for internal combustion engine forklifts.

The use for labels meant for lift forklifts can be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Consult your local insurance carrier and Fire Marshall for more information concerning the permitted uses of industrial powered trucks in your application.

If the particular forklift satisfies the outlined criteria, labels may be placed. A labeled forklift will show the type of designation placed on the nameplate and would have a properly corresponding label put.
