

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each global trade. Transporting industrial goods occurs each day on our industrious planet. Initially innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained popularity following WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread worldwide.

In the year 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Presently the business is simply called TCM Corporation. Over the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began building forklift manufacturing sites outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes numerous models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products used and recognized all around the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
