

## Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader business in the world. They are a devoted maker of spreaders meant for many different applications such as the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of making use of all of the latest CAD systems and FEM tools. The ELME business currently employs more than 125 staff members. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the world.

The ELME product collection offers spreaders for various trailer and container handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes as well as a wide array of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created over 1150 spreaders by means of utilizing high quality parts to be able to guarantee dependability and high standards while offering competitive prices. Major features of ELME consist of design simplicity, market response and inventive modular spreader concept.
