The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really outstanding international support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the internationally accepted quality standard ISO 9001 for all of their production facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities for the reason that this technique is extremely economical and allows for minimal use of resources. Developed to guarantee maximum proficiency, this system is designed to discover and acknowledge the most effective ways for manufacturing plant stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and brilliance of their merchandise while minimizing costs. The contemporary value engineering program combines progressive product growth and offers improved client support and service within the industry.
